ETA® International represents electronics professionals with industry-recognized certifications accredited by the International Certification Accredi-

tation Council (ICAC). ETA offers over 80 technical certifications in a variety of industries such as: Basic Electronics, Communications, Fiber Optics/ Data Cabling, Information Technology and Renewable Energy. Aligning with international standards, industry best practices, and military/business initiatives, ETA certifications connect with career and technical education curriculum. Developed by industry experts, ETA certifications are vendor-neutral third party assessments testing both knowledge and hands-on skills. You can find ETA-certified professionals working for many well-known companies like Motorola, Google, ADT Security, Verizon Communications, Boeing, United States Armed Forces, and more.

**Automotive/Auto Body/Small Engine
Diesel, Electricity & Electronics**

Do you teach Electronics, Electricity, HVAC, or Automotive Technology? Still using old methods to teach modern technology? Learning electricity can still be easy and fun when you use our software for electricity/electronics instruction. Use the software on all computers and networks at your campus. You may allow students to use the software on home computers if desired. \$229 for unlimited site licenses! Funds short? Funding is often available through Carl Perkins, your media center, or library. Your director can split cost between several departments using local funds. This software is excellent for retention efforts, individualization, and remediation. Download trial software programs from our website.

CNC, CAD, Manufacturing, Welding, Machining

Forest Scientific Corp. manufactures CNC routers, CNC plasma cutters, wood and metal CNC lathes, and CNC milling machines in Pennsylvania and Arizona, U.S.A. We specialize in machines for education and training. We also repair and upgrade older CNC machines, regardless of the original manufacturer, to new Windows-based control systems for a fraction of the cost of their replacement. Extensive on-site training is provided at the time of installation to prepare the instructor to teach with the equipment. We have the best warranty in the market, a three-year on-site, single source, parts and labor warranty to protect your investment.

CNC/CAM, Career/Technical/Vo-Ed, Manufacturing, STEM, Technology Education, Woodworking

ShopBot Tools continues the mission of making digital fabrication tools widely accessible and user-friendly. ShopBot's CNC routers deliver the power, precision, and reliability of tools traditionally costing thousands of dollars more. We also provide unparalleled support for our user community with forums, production support services, and training classes. ShopBot is one of the largest producers of digital fabrication equipment for the small-to-mid sized manufacturing, DIY, and education markets.

HVAC

Since 1992, Simutech Systems has been providing computer-based HVACR simulators to secondary and post-secondary schools. Our easy-to-use simulators provide students with realistic "hands-on" HVACR service training and theory-of-operation, which greatly enhances their retention level and interest. Using computerized fault-insertion and on-screen instrumentation, students learn how to properly troubleshoot and repair various HVAC and refrigeration systems. Instructors are provided with numerous reports to help track stu-

dents' progress. Simutech's simulators help to meet accreditation standards for PAHRA and HVAC Excellence and are ideal study tools for NATE and ICE Certification.

CNC/CAM, Career/Technical/Vo-Ed, Manufacturing, STEM, Woodworking, Metalworking, Plastics

Techno offers high-speed, affordable industrial-quality CNC routers, plasmas, and laser machines in a wide range of sizes from 12" x 12" to 5' x 10'.

Students learn on full-scale production systems guaranteeing they are well prepared for real-world applications. Ease of use and compatibility with available CAD/CAM software enables educational institutes the flexibility to integrate their CNCs throughout a variety of STEM electives and curriculums, such as manufacturing, architectural design, prototyping, and pre-engineering.

Every machine is installed and supported by local Techno representatives to ensure a successful startup, and we provide superior technical support FREE for the life of our equipment.
